

IGRGEA LETTER

International Geophysical Research Group /Europe -Africa

AIM OF THE LETTER

At the End of the IEEY, IGRGEA (International Geophysical Research Group Europe Africa) has been organized to follow the research work initiated during IEEY.

IVORY-COAST PROJECT

Vafi Doumouya, of Abidjan University (Ivory Coast) came for a 5-week visit at the Institut de Physique du Globe (IPGP-Paris) from July 17 to August 17, 1995, to work on electrojet variations from the magnetic results.

Etienne Hougoinou, of Abidjan University (Ivory Coast) working on HF radar drift data, is presently at LDG/CEA, France, for the interpretation of 1993 series. He will be staying from August 10 to October 12, 1995.

SENEGAL PROJECT

Boubakar Barry of Dakar University (Sénégal) will come to CNET Lannion B /GER (Group of P. Lassudrie-Duchesne) during November 1995. He will prepare the numerical HF sounding experiment to specify the application of existing propagation to specify the application of existing propagation equipments. This project will be developed in collaboration with EMST (Ecole Multinationale Supérieure des Télécommunications) which associates the following countries : Bénin, Burkina Faso, Mali, Mauritanie, Niger, Sénégal, Togo.

KORHOGO SITE

Installation of the LETTI radar on the Korogho site is expected for early December

The Fabri-Perot interferometer is being revised for replacement of the photonic

signal processing unit.

DATA BASE

The final catalogue of the worldwide IEEY project data base will be edited by C. Amory-Mazaudier ; it will include the data acquired in the 3 longitude sectors. Dr B.R. Arora (Asia) and Dr M.A. Abdu (the Americas) should send the catalogues for their sectors before November 30, 1995

Concerning the African/European sector, please send to C. Amory-Mazaudier the last update of your data set as soon as possible.

BOULDER ICDC SESSION

At the Boulder IAGA Congress (ICDC session 7.2) Dr. Muniz Barreto presented the work achieved during the first latino-american school of geomagnetism.

A document has been issued, that can be requested from the GIRGEA secretariat.

GEOPHYSICAL SCHOOL IN ABIDJAN

The school will be at Abidjan from 16 to 26 October 1995 . During the school, Vafi Doumouya will present his Ph D. on the EEJ variations.
